- ✓ number of directors at the 1st level;
- ✓ SPER = 1.

*Your planned PT for each month of every three months of participation in the programme must be higher than your average PT for the previous 6 months.

For example, if you are planning to participate in the programme in June, July and August 2016, your average PT for December 2015 – May 2016 = 80000 points, which means that you need to plan a PT > 80000 points for June, July and August each.

The Premium Exchange Rate is not taken into consideration while calculating bonuses in the OBC for the Online Bonus programme. The bonus in the Online Business Center is calculated every day, using the basic exchange rate.

The company reserves the right to make changes to the “Premium Exchange Rate”.
